

## 3. FIRE AND EXPLOSION HAZARD DATA

(continued)

EXTINGUISHING MEDIA:

Water, Foam, CO2, Dry Chemical SPECIAL FIRE FIGHTING PROCEDURES:

None Brown

UMUSUAL FIRE AND EXPLOSION HAZARDS:

Heat of fire may release ammonia and HF.

### 4. REACTIVITY DATA

------STABILITY: Stable

INCOMPATABILITY - MATERIALS TO AVOID:

3.34

HAZARDOUS FOLYMERIZATION: Will Not Occur

HAZARDOUS DECOMPOSITION FRODUCTS:

Thermal decomposition may produce toxic materials including HF.

#### 5. ENVIRONMENTAL INFORMATION

#### SPILL RESPONSE:

Observe precautions from other sections. Cover with absorbent material. Collect spilled material. Place in an approved metal container, and seal.

## RECOMMENDED DISPOSAL:

Discharge spent solutions and small product quantities, (5 gal., to a wastewater treatment system. Incinerate bulk product in an industrial or commercial facility. Combustion products will include HF. Since regulations vary, consult applicable regulations or authorities before disposal. U.S. EFA Hazardous Waste No.: None

#### ENVIRONMENTAL DATA:

Data for product solids: Chemical Oxygen Demand (CDD): Nil (700 mg/Kg); 20-Day Biochemical Oxygen Demand (BCD20): Nil; 96-Hr. LC50, Bluegill Sunfish (Lepomis macrochirus): 569 mg/L; 96-Hr. LC50, Fathead Minnom (Pimephales promelas): 766 mg/L; 48-Hr EC50, Daphnie magna: 532 mg/L; 14-Day EC50 (cell dry weight), Green Algae (Selenastrum capricornutum) 73 mg/L.

## 6. SUGGESTED FIRST AID

## EYE CONTACT:

Immediately flush with plenty of water. Continue for 18 minutes. Call a physician.

## SKIN CONTACT:

Wash affected area with scap and water.

#### INHALATION:

If symptoms occur, remove person to fresh air. If symptoms continue, call a physician.

#### INGESTION:

DO NOT INDUCE VOMITING. Give copious amounts of water. IMMEDIATELY call a physician or Foison Control Center.

OTHER FIRST AID:

MOME

Abbreviations: N/D - Not Determined

N/A - Not Applicable

Exhibit 1356

State of Minnesota v. 3M Co., Court File No. 27-CV-10-28862

#### 6. SUGGESTED FIRST AID

## 7. PRECAUTIONARY INFORMATION

General safe practice requires that contact with the skin/eyes and breathing of vapors, fumes, mists, or dusts should be avoided. When not in use, the container should be kept tightly closed. Avoid prolonged/repeated breathing of concentrated vapors. Hee only in areas sufficiently ventilated to prevent vapor buildup. NOTE: Ammonium perfluorcalkyl carboxylate was fed to albino rats for 2 years, no compound induced carcinogenicity was found in the study; statistically significant compound related benigh testicular tumors. Based on current browledge, the findings have no human health implications. SPECIAL PROTECTION:

EVE PROTECTION: Safety Soggles SKIN PROTECTION: Rubber gloves, protective clothing. VENTILATION: Local exhaust ventilation is recommended. RESPIRATORY PROTECTION: Air supplied respirator where local exhaust ventilation is not available.

#### ADDITIONAL EXPOSURE LIMITS

|---- EXFOSURE LIMITS ----| VALUE UNIT TYPE BUTH INGREDIENTS

Ammonium Perfluoroalkyl Carboxylate 8.1 mg/m3 7WA 324

## SOURCE OF EXPOSURE LIMIT DATA:

- ACGIH: American Conference of Governmental Industrial Hygienists
- 3M: 3M Exposure Guidelines
- MDME: Mone Established

### 8. HEALTH HAZARD DATA

EVE CONTACT: No toxicity data for FC-118. Ammonium perfluoroalkyl carboxylate can be irritating to the eye and may cause eye injury from airborne exposure.

SKIN CONTACT: No toxicity data for FC-118. Ammonium perfluoroalhyl carbonylate is slightly toxic when absorbed through the skin; it is mon-irritating to the skin.

IMPRATION: No toxicity data for FC-118. Ammonium perfluoroalhy? carbonylate may cause respiratory system irritation from inhalation; can be considered moderately towic by inhalation on a single exposure; a median lethal concentration for a 4-hour exposure in the albino rat is 980 milligrams per cubic meter. Repeated inhalation emposure produced liver changes and elevated blood organofluoride levels in

INDESTION: No toxicity data for FC-118. Ammonium perfluoroalkyl carbonylate is considered moderately toxic from a single oral exposure; soute oral LDS0 (rat) is 540 mg. per kg. of body weight. See precaution section for results of 2 year study.

Abbreviations: N/D - Not Determined N/A - Not Applicable 

The information on this Data Sheet represents our current data and best opinion as to the proper use in handling of this product under normal conditions. Any use of the product which is not in conformance with this Data Sheet or which involves using the product in combination with any other product or any other process is the responsibility of the user.

Product Information Euorad Fluorochemical Surfactant •FC=118

## Fluorad™ Fluorochemical Surfactant FC-118

## Introduction

Fluorad Fluorochemical Surfactant FC-118 is an aqueous solution of ammonium perfluoroctanoate, an anionic fluorochemical surfactant. Hightly fluorinated micelles can be formed in aqueous systems - a property that has led to extensive use of FC-118 in the emulsion polymerization of fluorinated monomers.

## Typical Properties (Not for Specification Purposes)

Form	
Composition	20% aqueous solution
pH	
Specific Gravity	

## **Surface Tension**

Although FC-118 is soluble in certain polar organic solvents such as ethanol and acetone, solubility can be limited in inorganic systems, but there is generally sufficient solubility to enable FC-118 to significantly reduce surface tension. FC-118 is not active in 100% organic systems.

Surface Tension at 25°C (dynes/cm)

Solvent	Grams of FC-118/100 Grams of Solvent			
	0.0	0.005	0.05	0.5
Distilled Water	72	60	53	44
Hydrochloric Acid, 18.5%	72	59	51	26*
Hydrochloric Acid, 37%	67	65	5 <b>9</b>	30*
Nitric Acid, 10%	71	56	31	19
Nitric Acid, 40%	68	56	40	22
Nitric Acid 70%	56	54	47	25*
Sulfuric Acid, 10%	73	48	29	22*
Sulfuric Acid, 50%	76	72	69	25*
Sulfuric Acid, 95%	58	57	55	32
Potassium Hydroxide, 10%	77	43	23	20*
Potassium Hydroxide, 30%	83	22	19	18*
•				*Not all dissolved

## Storage

FC-118 should be stored at or near room temperature. Frozen containers should be warmed to room temperature and the solution stirred until all solids are redissolved.

## **Product Safety**

Please refer the Material Safety Data Sheet and product label. Material Safety Data Sheets are available through your local sales representatives.

Please see important notice on back page.
