Subject: Scientific Publication Strategy

NOTE FROM DAVE SANDERS

At our meeting on November 2, we agreed on a basic set of focused publications that would establish the safety of our products and processes, referencing our findings of fluorochemicals in our occupational workers and in the general population.

Attached is the general reference list which you outlined at that time, with the promise to provide more detail.

We need the detail asap, by December 10, so that we can continue to press forward on this important program. Here's what we need:

- * Proposed Title of the Paper
- * List of Authors
- * A few sentences which describe the purpose of study and the significance
- * Proposed Scientific Journal for Submission
- * Anticipated date of study completion and target date of submission to the journal.

Please develop the information requested and submit to me by December 10. The FC Issues Core team will review external publication or presentation proposals, so if you will list me last on the publication approval list, I will see that it becomes an agenda item.

Thanks in advance,

Dave

“DRAFT”

Scientific Publication Strategy

Proposals – November 2, 1999

Medical Department

Toxicology Studies

Name

Approximate Date of Submission

(Six to 12 month turnaround time from submission to publication is typical)

- | | |
|--|----------------|
| ➤ Teratology | December/1999 |
| ➤ Old Metabolism Studies
(~ 1975-'81) | February,/2000 |
| ➤ Subchronic Rat (PFOS)
(overall 4 papers possible:
PFOS, MeFOSE, EtFOSE, Review
Article Griffin/SCJ) | February/2000 |
| ➤ Two Generation Repro | February/2000 |
| ➤ Primate Subchronic | April/2000 |
| ➤ Genotoxicity | April/2000 |

Occupational Medicine

- | | |
|--------------------------------------|---------------|
| ➤ Claims Study | February/2000 |
| ➤ Human Sera Characterizations | June/2000 |
| ➤ Human Sera/Liver Characterizations | June/2000 |
| ➤ Mortality Studies | August/2000 |

Corporate Environmental Laboratory

- | | |
|---|------------|
| ➤ Hydrolysis of Fluorochemicals
(selected chemistries./polymers) | March/2000 |
|---|------------|

3MA00467428

1630.0002

<u>Name</u>	<u>Approximate Date of Submission</u> (Six to 12 month turnaround time from submission to publication is typical)
➤ Low level Measurement of Fluorochemicals in Environmental Matrices	March/2000
➤ Photolysis of Fluorochemicals (selected chemistries/polymers)	2Q/2000
➤ Analytical Methodologies (Human Sera)	2Q-3Q/2000
➤ Aerobic/Anaerobic Degradation of Fluorochemicals	3Q/2000
➤ Physical/Chemical Properties	4Q/2000
➤ Ecotox Studies of Selected Fluorochemicals	4Q/2000
➤ Measurement Methodologies for Detection of Fluorochemicals in Biological Tissues	4Q/2000
- Low level measurement of TFA in Blood (study complete)	
- Air Sampling & Analysis of POSF (study complete)	
 <u>Industrial Hygiene</u>	
➤ Decatur Exposure Assessment (air, surface sampling & analyses)	March/2000
➤ Development of a Sampling and Analytical Method for Organofluorine Compounds in Air	March/2000
➤ Organic Fluorochemical Glove Permeation Testing	3Q/2000
➤ (Proposed) Exposure of Fluorochemical of Occupational Workers (Downstream Workers)	TBD
