H. S. Parkinson
C. P. Pesek
H. W. Rehfeld
H. J. Wessel

March 3, 1967

TO: W. W. WATSON

FROM: C. E. KIESTER

TO ALL ENGINEERING MANAGERS:

In view of the increasing number of federal, state and local regulations being enacted, and the increasing public attention being given to environmental pollution, it becomes necessary to review the present practices of disposal of wet and dry scrap at all of our plant locations.

To assess the current status, it is requested that each Division Engineering Manager provide the necessary information on the disposal of wet and dry scrap as outlined on the attached questionnaire for each of the plants for which he is responsible. This information should be forwarded to Dr. J. T. Ling, Manager, Water and Sanitary Engineering Department, Building 42-2W, St. Paul, within thirty days.

Please contact Dr. Ling at 733-2266 if you have any questions.

D. R. Guthrie
Vice President of Engineering
and Staff Manufacturing
