Conference

Perry, we have developed a process to review all publications and public presentations at the FC Issue Core team, so I'll take your proposal to the team for review, and get you and Geary an answer asap. In the meantime, please don't make any commitments for the presentations until you have heard from us. I'll call you to get the details. Thanks, Dave

Subject: Decatur FC Exposure Assessment - Presentation at IH Conference

Hello Gentlemen!

Since we are in the process to publishing our FC exposure assessment papers in scientific journals, would you support presentation(s) at the National IH conference in 2000? I could present the Decatur IH exposure assessment and Geary could present the serum study.

Please let me know if we can pursue this.
Thanks!
Perry
