 Subject: Cgrove list

Site Archives e42

Todd: Here is the file information we are looking for at C Grove.

- Records of any spills or releases
- Verification of where historically FCs were tested and manufactured. Also where were other *-?* products using FCs tested and manufactured (if different).
- Fire training facility. When started, frequency of product testing. Is this the only facility ever used *-C.G.* at the site.
- Where did manufacturing off-spec products and residues go on site. *-?*
- Where did HF tar go prior to D1 and where did it go after D1 was closed. *-?*
- Document sewer history--sewer layouts prior to recent replacement and a record of what *-Fischer* happened to the sewers that were replaced.
- Document wastewater treatment pond history. Locations, processes that went to them, outfall *-Fischer* locations. *?*
- Where did wastewater treatment sludge go. *-SANTONO / Fischer / Bobbitts*
- Are there aerial photos of the site available. *-?*
- Pumping records for 2003

have it
