State of Minnesota v. 3M Co.,
Court File No. 27-CV-10-28862

non-stop water repellency

You can make a career of attending football games and you'll never get soaked in an unexpected storm if your coat is treated with "SCOTCHGARD" Brand Rain & Stain Repeller.

To be really effective, a water repellent must do two things: it must be durable through repeated washings — *and most important* — through repeated dry cleanings.

Only "SCOTCHGARD" Rain & Stain Repeller does both. Other good water repellents are durable through repeated washings, but only "SCOTCHGARD" Repeller lasts through repeated washings *and* regular dry cleanings, season after season. *Without reprocessing!*

In addition to its superior water repellency, "SCOTCHGARD" Repeller also repels stains, even oily ones. Oil- and water-borne spills roll right off, or stay on the surface for easy removal. Even forced-in stains can be removed by washing or spot-cleaning — without leaving a solvent ring. "SCOTCHGARD" Repeller also resists soil. All of this means that your coat will stay new-looking much longer!

Where to get "SCOTCHGARD" Rain & Stain Repeller? In rainwear and outerwear at leading stores throughout the country. (And we hope your team wins!)
